📊 Career Timeline

2022 - 24 — WTS

March 2025-May 2025 — RENDERCITY TECHNOLOGIES

💼 Work Experience

WisValour Technology Solutions Private Limited, Chennai as BI Technical Consultant
Oct'22 – Mar'24

Key Result Areas:
- Responsible for gathering business requirements and technical specifications from users.
- Engaged in designing, developing, testing, publishing, maintaining, and supporting Qlik Sense applications.
- Built QVDs from various data sources such as SQL Server and SAP.
- Eliminated synthetic keys and loops in the data model to develop effective data models.
- Developed interactive dashboards using diverse objects like Straight Tables, Pivot Tables, Bar Charts, Containers, and Pie Charts.
- Created tasks and scheduled jobs on the NPrinting server.

⚙ Project

GST Portal Format   Client: GRT

Key Result Areas:
- Developed and implemented a comprehensive GST Portal using Qlik Sense to streamline tax reporting and compliance.
- Utilized advanced SQL queries to extract, transform, and load data from diverse sources, ensuring precise analysis.
- Designed and published monthly GST reports in Qlik Sense, guaranteeing timely delivery to all stakeholders.

🏆 Achievements

ACADEMICS
•Attended webinar about embedded systems
• Attended symposium about advance technology in same college

⚙ Intern Projects

Rendercity Technology Solutions Private Limited, Bahrain as Flutter Full Stack Developer Intern March 2025-May 2025

Quiz Application:
- Developed an interactive quiz app using Flutter and Dart with a dynamic question bank.
- Implemented state management to track user progress and scores.
- Integrated responsive UI for mobile and tablet support.
- Added features like timed questions, result summary, and user-friendly navigation.

Food Booking Application:
- Built a feature-rich food ordering app in Flutter to manage **menu browsing, cart system**, and **checkout functionality**.
- Implemented **real-time cart updates**, **order type selection (dine-in/takeaway)**, and **payment summary**
- Designed a clean admin panel for managing **items, orders, and customers**.
- Utilized REST APIs for backend communication.

Event Management Application:
- Created a full-featured event management app allowing users to **browse, register, and manage events**.
- Integrated **calendar view**, event filters, and **registration forms**.
- Enabled real-time event updates using **Firebase integration** (if applicable)
- Focused on performance, UI/UX, and cross-platform consistency.
